PLENTY OF EXCITEMENT

When Fire Alarm from Box 58 Sounded Last Evening—The Loss Slight—Started in Jewish Synagogue Building.

Geel but it was some exciting Monday night, with a band concert on an alarm was pulled in from the police station box for a fire in the brick block at the corner of State and Pleasant streets at 9.50. At the above hour Dr. Dixon was passing and saw smoke issuing from the windows in a store room near the Jewish Synagogue which is situated on the top floor. Chief Randall and his assistants were at the scene in an instant and soon streams of water were turned into the building from the steamers, Kearsarge three and Colonel Sise two.

The chemical did not get a clear alarm at its headquarters, and was a trifle late in arriving, but soon had a stream on. It was a lively time when all the apparatus arrived and it took all the police that could be spared to keep the crowd back.

In the building are the following firms or business or business concerns.

J. N. Pearson, confectionery; H. P. Montgomery, piano storage; Chinese laundry; H. P. Payne's wine store house.

The origin of the fire is thought to have started in the partition, and it

was a difficult one to fight. Streams were sent into the building from hose wagons, two, three and four, and the firemen never worked harder, and in less than half an hour after the alarm the apparatus was being sent back. The building is owned by the Tredwell estate and the loss will not reach \$500. Most of the damage will be from water.

ADrift AT SEA

All Night Helpless in a Motor Boat

G. W. Stetson and his son-in-law, C. C. Childs, had a motor boat experience on Saturday and Sunday that they will not soon forget.

They left Portsmouth for a sail on Sunday morning and were blown out to sea when the motor refused to work. At night they were beyond the Shoals and they drifted until midnight when they anchored.

When the gale subsided they managed to make the Shoals, on Monday, and finally reached home, much to the relief of their families.

THE WEATHER

Tuesday night and Wednesday—Fair and somewhat warmer, with light variable winds.

Several car loads of people went to Lowell yesterday morning.

CHRISTIAN SCIENCE

Lecture Given in This City on Sunday

About six hundred people gathered at Music Hall at 3 o'clock on Sunday afternoon to listen to a lecture by Professor Hermann S. Hering, C. S. B., on Christian Science.

He was introduced by His Honor Mayor Edward J. Adams, who gave in a few brief words a brief history of the tremendous growth of the Christian Science faith, and paid the speaker a high compliment. Mayor Adams spoke as follows:

Mayor Adams presided, and said, in part:

Somewhere I have read that a long time ago, in an ancient church, there was an old organ which no one had really learned to play upon. Occasionally some one would sit before it, draw out its stops, and awaken its harmonies, but as yet no one really knew the great wealth of music that was contained in that old organ. One day a master teacher entered the church and sat before the organ, as many had done before him, drew out its stops and touched its keys. Immediately the people listening were hushed in silence as they heard the old, familiar organ first sigh and weep, then thrill with passion and shout for joy. They said among themselves: "Can this be the old organ we have had so long, and never knew its power before?" From that time onward, it was the ambition of many to reproduce the harmonies which had been awakened by the Master's touch, and whenever the best of them did their best, the others listening would say, "That sounds like the Master's playing!"

This human life is similar to the organ, with its complex mechanism, its hidden harmonies, its possible discords. Many teachers have been successful in drawing out and developing some of its best powers. But a long time ago, in a little hamlet of Rome, there appeared one called "Jesus the Master." He declared that in himself was to be the fulfillment of all the prophecies. He associated with men, taught them, labored with them, revealed unto them the beauties of a human life in action. He told his disciples to do the same work that he was doing. His commission to them was, "As we go, preach, saying, 'The Kingdom of Heaven is at hand. Heal the sick; cleanse the lepers; raise the dead; cast out devils. Freely ye have received, freely give.'" Since that time it has been the ambition of many to reproduce in thought, in word, in action, the life and teachings of the Master, and whenever men do their best, we say: "That action was Christlike. How much that sounds like the Master's playing!"

We do well to remember that every life that is brought into contact with the life of Jesus, the Master, by a living, loving faith, must in some way unfold and develop and complete all the powers God has given men. For the teachings of the Master, as the Gospel teaches them, have come to take hold of all these human powers; they have come to suppress and destroy every angry and unwholesome passion; they have come to purify and beautify every affection; they have come to dignify every emotion; they have come to sanctify every volition; they have come to ennoble man from the crown of the head to the sole of the foot. Not alone the individual man, but these teachings go out from the individual and take hold of so

KITTERY LETTER An Eight Hundred Pound Shark

A Wedding Reception on Monday Night

Traipse Academy Reopened for the Year

Captain Daniel Frisbee Rnn over by a Team

Kittery, Me., Sept. 7. Kittery correspondent's telephone 297-5.

The selectmen have posted notices calling for bids for painting the interior of Armory Hall and the new woodwork outside the hall, and for the sale of the old fire house at navy yard station. The bids will be opened Saturday, Sept. 11, at 7 o'clock, at the selectmen's office.

Mr. and Mrs. Arthur Baker of Love Lane passed Sunday and the holiday with relatives in York, their former home.

The lighter Waccamaw was towed here on Saturday from Boston with coal hoisting apparatus for the new coal pocket at the new wharf on board. The digger has been used on the Waccamaw in harbor lighterage, but has been found too heavy for her. The Waccamaw is owned by the Consolidation Coal Company and was originally a three masted schooner of the same name. She was towed here by the tug John G. Chandler.

Schooner Albert G. Lawson, Capt. Angleson, arrived Saturday from Cape Ann with a cargo of stone for the navy yard quay wall extension.

Mrs. Ida Marshall of York was the guest of her daughter, Mrs. Ned Paul yesterday.

Harold Smart of Portsmouth was a visitor in town on Saturday evening.

Mrs. Augusta Morris of Boston, a former resident here, is visiting in town. Mrs. Morris was married 27 years ago Monday by Elder Eugene Beck, and since then has hardly seen her old home.

There was less observance of Labor Day Monday than for some years. The principal features here were the picnics of the Red Men and Odd Fellows and the baseball games, which drew large crowds. "The Rejuvenation of Aunt Mary" at Music Hall, Portsmouth, in the evening was witnessed by a great number from here, there being some 250 on the two theatre cars to Kittery and Elliot after the performance. The beaches were well patronized and the harbor was alive with pleasure craft.

The schooners Fannie Palmer and Mary E. H. G. Dow, which were damaged in collision in the harbor, are being repaired at their docks in Portsmouth. A rigger from Bath is doing the work. Palmer's new flying jibboom is already in place.

Walter MacDonald is to move his family into one part of the house recently vacated by Rollin Stevens and family on Government street.

Mr. and Mrs. Benjamin Burke of Portsmouth passed the holiday with Mrs. Burke's father, M. O. Stimson of Love Lane.

Miss Una Brann, who has passed the summer with her parents, Mr. and Mrs. P. M. Brann of Jones avenue, left Monday for Bates College, Lewiston.

Mrs. Walter Sawyer of Lynn was the guest of Henry B. Shaw and family of Central street over Sunday.

Miss M. Gertrude Damon of Somerville, Mass., passed Sunday and Monday with her parents, Mr. and Mrs. George W. Damon of Government street.

Miss Freda Wetherbee of Bath is visiting Isaac H. M. Pray and family of the Rogers Road.

Mrs. Lilley and two sons, who

FORESTERS' FIELD DAY

Held Successful Outing on Monday at Rockingham Junction

The first annual field day of the Foresters of Strafford and Rockingham counties was held on Monday at the old Town farm, Rockingham Junction, where over five hundred members of Courts Rockingham of Portsmouth, Wheelwright of Exeter, Newmarket of Newmarket and Strafford of Dover, gathered for the occasion which proved a gala day for every member of the order who attended.

It was the first time an effort was made to have the several courts combine for a day's outing and the result is that such a gathering will occur in one or the other of the four towns each year.

Athletics and Dinner

The sporting events brought out no small amount of interest and each order had a lot of live athletes on the spot to capture the prizes.

The baseball contests between the different courts were lively.

In the first game, Portsmouth defeated Dover by a score of 4 to 3.

In the second game, Newmarket by a score of 17 to 7 defeated Court Wheelwright of Exeter.

The final game was played off

between Portsmouth and Newmarket and Portsmouth down and out, 12 to 0.

The rest of the events included a tug of war, hundred yard dash, hop, step and jump, fat man's race, threelegged race in which Newman, the youngest court in the state, carried off most of the honors.

A fine shore dinner was served by Caterer Slapson of Dover, who is a past master at the business and pleased every man on the grounds.

The musical end of the program was given by the Newmarket band, and was much enjoyed.

Those in Charge

The general committee members were:

John Leary, William Cogan, B. J. Sullivan, Edmund Quirk, Portsmouth; Frank Young, James McDonald, John McLean, James Dennett, Dover; P. J. Kennedy, John Troy, William Dufault, Exeter; Jas. Barrett, Ernest Boesler, Newmarket.

Dr. J. J. McCarthy of Nashua, Grand Chief Ranger, and William J. Callaghan of Keene, Grand Secretary, were special guests of the day.

WON IN 1-4 OF SECOND

Marathon and Other Sports of Fraternal Order of Eagles

One of the best and most enjoyable social events of Labor day was the annual picnic of the Mercedez Aerle, Fraternal order of Eagles, held at Grand's Grove in Rye.

At this picturesque spot there were nearly a half thousand people who knew that any function under the auspices of the local lodge of this order means a lot of enjoyment. The occasion of Monday was no exception.

The day was in keeping with the event and everything connected with the management was perfect.

The Marathon Race

The Marathon race, a feature which this organization produces every year in addition to the sports on the grounds, called forth great interest. The race started at 1 o'clock from Market square and at the appointed hour the following runners were in line: James Driscoll of Boston, Moses Dowdallby, Andrew Barrett, Ned Sterling, J. W. Libby, James Dawson, Ray Faulkner, Samuel Reed, Timothy Barrett.

The runners bunched together on the start, leading off at a fair jog. As they got out on the course the several sports divided half of them and Dawson, Faulkner, Reed and Timothy Barrett topped out.

Driscoll, the winner of the last year, carried off the honor again. The finish was as follows:

Driscoll—1 hour, 10 minutes. Dowdallby—1 hour, 10 1/4 minutes. A. Barrett—1 hour, 12 minutes. Sterling—1 hour, 14 minutes. Libby—1 hour, 15 minutes.

The Other Athletic Events

At the grove, the remainder of the sports scheduled were pulled off and resulted as follows:

100 yard dash, George Mitchell first, A. Barrett second.

Standing broad jump, Albert Hunt first, G. Lane second.

Hop, step and jump, George Mitchell first, Boardman Randall second.

Running broad jump, George Mitchell first, Boardman Randall second.

Running high jump, Boardman Randall first, Dennis Long second.

Three-legged race, A. Barrett and M. C. Cornick.

The baseball game was the drawing card at the grounds and the old rivals, the P. C. U. and Kittery had it out. Kittery won by a score of 9 to 8.

Among Those Present

There were numerous Eagles from other cities on the grounds, besides a large delegation of Uncle Sam's men from the ships at the navy yard, who are members of the fraternity.

The general committee were Al Driscoll, the winner of the last year, carried off the honor again. The finish was as follows:

Driscoll—1 hour, 10 minutes. Dowdallby—1 hour, 10 1/4 minutes. A. Barrett—1 hour, 12 minutes. Sterling—1 hour, 14 minutes. Libby—1 hour, 15 minutes.

The Other Athletic Events

At the grove, the remainder of the sports scheduled were pulled off and resulted as follows:

100 yard dash, George Mitchell first, A. Barrett second.

Standing broad jump, Albert Hunt first, G. Lane second.

Hop, step and jump, George Mitchell first, Boardman Randall second.

Running broad jump, George Mitchell first, Boardman Randall second.

Running high jump, Boardman Randall first, Dennis Long second.

Three-legged race, A. Barrett and M. C. Cornick.

PEARY HAS FOUND THE NORTH POLE

COMMANDER ROBERT E. PEARY.
Who States That He Has Discovered the North Pole.

Robert E. Peary Has Telegraphed That He Discovered the Pole April 6, 1909.

Chateau Bay, Sept. 6.—Commander Robert E. Peary has sent to the New York Times a story of his discovery of the North Pole on April 6, of this year.

Peary has sent brief dispatches through to his wife, who is now in Harpswell, Me. Full particulars will be obtainable by next Wednesday.

Note.—Should the reported discovery of the North Pole by Commander Peary be confirmed, that intrepid explorer will still be nearly a year behind Dr. Cook, who gives April 21, 1908, as the date of his arrival at the pole.

Nevertheless, it is particularly gratifying that the man called by the London Standard, "The Odysseus of Arctic Travel," has not been completely distanced in the race to the top of the earth.

The success of Commander Peary, despite the earlier achievement of Dr. Cook, has been splendidly earned and fittingly crowns the career of the man who is unquestionably entitled to be regarded as the greatest of Arctic explorers.—Editor.

THREATENED TO SHOOT NORTH END RESIDENT

Flourishes Revolver and Frightens Neighbors, Locked Up—Other Police Doings.

The North End was exciting enough Sunday night to satisfy cravings of the most ardent lover of sensations. It was one, two, three for hurry call at police headquarters. The first call was shortly after 6:30 o'clock, when word reached Marshal Eastwell that someone had been shot. Officers Burke and Kelley were dispatched to the scene and upon arrival they found Dominick Bodine flourishing a revolver in the air and making a "noise," and the neighbors, Augustus Trodo, was running about apparently under the impression that he had been shot. Upon arrival at the station they told their stories to the chief and he held them. The man with the gun is held for carrying concealed weapons and the other answer to noise and brawl.

non on the scene, but have not as yet landed the aggressor. Both are well known and they will free the chief.

Word was received at the police station this morning that a man was prowling about the North End. He was seen by a woman, and Captain Burton detailed Officers Gifford and Anderson to the scene. They arrested Louis Prichard, a black man, about 20 years old, who they caught strolling around and he will be arraigned before police court this morning.

MAY ROBSON,

"The Representation of Aunt Mary," by Anne Warner, a comedy, was presented for the first time at Music Hall, and Portsmouth turned out an audience that filled the theatre. It was one of the most brilliant audiences that the theatre has ever held and the thoroughly enjoyed May Robson and her company and the star immediately captured the box office which registered many people who are spending the summer here.

DIDN'T KNOW MR. HITCHCOCK

Whitely, Conn., Sept. 6.—He was evidently a stranger in town so he only paid much attention to his story he went to the post office Friday night and asked to see Postmaster James H. Glyn. Somebody must have been

buying a two-cent stamp at the time, for the reply came that Mr. Glyn was busy. The stranger said he would wait, and he did so, about 20 minutes. Then he asked again.

"With an air of annoyance, one of the clerks said he would find out, and after some further delay Mr. Glyn emerged from the sanctum, accompanied by his two clerks, Mr. Mahoney and Mr. Harr, who were curious to find out what was the business of the urgent stranger.

"Well, sir," said Mr. Glyn, "what can I do for you?"

"Oh, nothing," replied the visitor, with an amiable smile. "I am just on my way from Beverly, Mass., to Lenox, and I thought I'd drop in and see you for a moment. My name is Hitchcock."

"Not Postmaster-General Hitchcock?" asked Mr. Glyn.

"I'm afraid so," and then there was a hearty handshake all round.

BASEBALL SATURDAY

Kittery defeated the Chevrolet Indians Saturday afternoon in a fast game and very interesting, the score being 5 to 7.

The score by innings:

Innings.....1 2 3 4 5 6 7 8 9

MRS. ELLEN E. PUTNEY

Sudden Death of Widow of New Hampshire Railroad Commissioner

Mrs. Ellen E. Putney, widow of Henry M. Putney, chairman of the New Hampshire railroad commission, died suddenly in Claremont, Sunday afternoon of heart disease, aged 68 years. Accompanied by her daughters Minnie and Isabel, Mrs. Henry Putney went to Claremont for a rest soon after the death of her husband, July 30.

She was born in Salisbury, N. H., the daughter of John Ferris, and had resided in Manchester for more than 40 years.

To feel strong, have good appetite and digestion, sleep soundly and enjoy life, use Burdock Blood Purifiers, the great system tonic and builder.

TWO DROWNED AT AMESBURY, MASS

Attempt to Rescue with a Canoe Results in Loss of Two Lives.

Amesbury, Mass., Sept. 6.—D. R. Miller, head of the Thermometer Works here, with his two sons started for a motor boat trip Saturday night, and while passing down the river their boat got stranded on a sand bar, where they remained all from shore in a canoe and attempted to take the three from the motor boat with the result that two lost their lives in the overturning of the canoe. The father was rescued while his two sons, one a doctor from Peabody, and the other a dentist here, were drowned.

A Concrete

building is a permanent investment because it defies the hand of time. It is frost and moisture proof, cannot burn or attract heat, and requires no paint, lathing, or repairs. The first cost is the only cost, once erected it lasts forever.

C. D. HANSCOM, 9 Congress St

LAURENTIAN CAST ON ROCKS

Allan Liner a Total Wreck
Off Cape Race

MANY LIVES IMPERILED

Passengers All Asleep in Berths
When Steamer From Boston to
Glasgow Met Disaster in Fog—Life-
boats Kept Afloat Only by Constant
Bailing—Ship Breaks in Two After
Many Years of Service

St. John's, Sept. 7.—Thrilling scenes attended the loss of the Allan liner steamer Laurentian, from Boston to Glasgow, which, piled up on the rocks near Cape Race during a dense fog at 6 o'clock Monday morning. The vessel in a total wreck, but the entire list of passengers and the crew escaped to land after a trying experience.

The Laurentian left Boston last Friday and when off the coast of Nova Scotia ran into a thick fog bank, which compelled her to run at reduced speed. The steamer was making about thirteen knots an hour when she struck the rocks near Cape Race. Captain Imrie took a course more northerly than usual and the thick fog caused him to lose his reckoning. The steamer carried twenty cabin passengers and thirty in the steerage, the crew numbering forty. When the ship struck she rebounded heavily, the shock throwing most of the passengers, who were all asleep at the time, from their berths. They stampeded for the deck, without stopping to dress, and for half an hour much excitement prevailed. Imrie and his officers, however, succeeded in quieting all hands and persuaded everyone to return to quarters and dress.

A stiff northwest wind banged the ship about and the situation became so serious at 7 o'clock that orders were given to put the ship's boats overboard. Twenty-five of the passengers, mostly women and children, were placed in the first boat, but the bow tackle collapsed and several persons were thrown into the sea. Others who managed to cling to the half upturned boat were injured by the thumping of the small craft against the sides of the collapsing liner.

Captain Imrie and his officers had ropes thrown from the deck and within fifteen minutes those who had been immersed were drawn to the deck. The passengers in the disabled boat were also rescued.

Finally six more lifeboats were put over, but the passengers say that some of the seamen of the Laurentian did not know how to row and that they were obliged to handle the oars themselves. The seas constantly drenched the shipwrecked people and it was only by constant bailing that the lifeboats were kept afloat.

To add to the troubles of all hands no one knew just where the ship had struck, and in consequence it was decided not to approach too closely to the beach lest the lifeboats be dashed to pieces on the coast, where in many places the cliffs rise to a height of fifty feet.

About 10 o'clock, after the boats had been adrift two hours, there was a rift in the fog and a boat from a nearby fishing village was sighted. The fishing boat piloted the life craft to a harbor, where the passengers and crew were cared for. A steamer left St. John's late last night to bring the shipwrecked people to this port.

Soon after the Laurentian piled up the plates amidship gave way and number 2 and number 3 holds and the engine room were flooded. Later the hull broke in two near the engine room and Imrie was obliged to stand by and see the end of his ship, which for thirty-seven years had crossed and recrossed the Atlantic.

"HOPE FOR THE BEST"

Doctor's Statement Indicates That
Harriman's Life Is Despaired Of
Arden, N. Y., Sept. 7.—Dr. W. G. Lytle, D. H. Harriman's personal physician, gave out a brief bulletin last night on his patient's condition. The bulletin follows:

"Mr. Harriman has suffered a relapse. He had a sharp attack of indigestion on Sunday, but rested comfortably today. We hope for the best."

Parade Without Music
Providence, Sept. 7.—Owing to a controversy between the Musicians' union and the Central Federated union, the Labor day parade here was without music. The Musicians' union was recently suspended from the Federated body.

Prize Fighter's Sad Fate
Chicago, Sept. 7.—Alfred Griffo, known as "Young" Griffo and formerly a well-known pugilist, is in a cell at the Harrison street police station, a physical and mental wreck. He had been drinking heavily.

ANOTHER FLAG AT THE POLE

Planted by Peary

April 6, 1909

NOW ON HIS WAY BACK

Saw No Trace of the Cook

Polar Expedition

WORLD AWAITS FURTHER NEWS

Explorer's Dream of Many Years
Is an Accomplished Fact

New York, Sept. 7.—"Stars and Stripes" nailed to the North Pole. From out the Arctic darkness there was flashed this message which stunned the scientific world and thrilled the heart of every layman. From the bleak coast of Labrador Commander Robert E. Peary gave to the world the news that he had attained his goal in the far north, while at the same moment in far-off Denmark Dr. Frederick A. Cook of Brooklyn was being dined and honored by royalty for the same achievement.

ROBERT E. PEARY.

Commander Peary found no trace of Dr. Cook, who reported to the world last week that he had made the same discovery in April of the preceding year. This news reached here through Captain Robert Bartlett of the Roosevelt, Peary's ship, on route to Chateau bay, Labrador.

Undeniable Yankee grit has conquered the frozen north and there has been created a coincidence such as the world will never see again. Two Americans have planted the flag of their country in the land of ice which men have sought to penetrate for four centuries; and each ignorant of the other's conquest has flashed, within a period of five days, a laconic message of success to the waiting world.

Cook, in his first message to his countrymen, was brief but noncommittal; Peary was even briefer, but specific. "Stars and Stripes nailed to the Pole," he said to the press. That was all, but never before have so few words conveyed to a people a greater meaning or a greater patriotic satisfaction.

On Sept. 1, Dr. Cook sent out from the Shelland Islands the first message of his success—a message which has aroused a storm of controversy around the world. Robert E. Peary, lost from view in the land of ice and unheard from since August, 1908, startled the world Monday, by a similar message sent from Indian Harbor, Labrador.

Message Leaves No Doubt
There was no qualification; it left no doubt. He announced unequivocally that he had reached the top of the world. Thus two flags with the Stars and Stripes of the United States are floating in the ice-packs, proving the courage of intrepid Americans.

With the word of Peary, the world waits breathlessly for details, but until he arrives at Chateau bay, Labrador, waiting must suffice. The first word of Peary's success reached New York at 12:30 p. m., in a dispatch to the Associated Press. It contained the bare announcement of his gaining the Pole. Almost simultaneously he had transmitted the news to London, repeating dramatically and simply, "Stars and Stripes nailed to the North Pole." At the same time he similarly advised the governor of Newfoundland.

Both the Old and the New World were thus apprised of his great achievement practically at the same moment and the excitement which followed attests to the high pitch of interest aroused over this climax of man's perseverance. Newspaper extras were rushed from the press and

those who read marvelled at the twist of the universe which had snatched the flag from the North in so strange a manner.

Like Cook's first message, Peary's was tantalizing in its brevity, and the waiting public, stimulated by Cook's success, was left unsatisfied. For, as did Cook, Peary resumed his homeward voyage immediately after filing the curt news of discovery. A few words were added to this meagre information at 2:50 p. m., when there was made public this additional information sent to Herbert L. Bridgman, secretary of the Peary Arctic club:

"Pole reached. Roosevelt safe. "PEARY."

Vital Points Cleared Up
This gave assurance that the vessel in which Peary departed had passed through the ice unscathed, but details of his homecoming and the date of this discovery of the Pole were still lacking. It was not until the New York Times had received a dispatch later in the afternoon, that these vital points were cleared up. The message said:

"I have the Pole. Expect to arrive Chateau bay, Sept. 7." With this information at hand, it was a comparatively simple matter to ascertain that the April 6 referred to was April of the present year, as his expedition did not start from New York until July 7, 1908.

April 6, 1909—the date that Peary planted the flag at the Pole—and April 21, 1908, the day that Cook unveiled the Stars and Stripes a year before, consequently became the cardinal dates upon which exploration of the Far North will rest hereafter. Though separated by about a year the same feat was accomplished by two Americans, neither of whom was aware of the movements of the other. Cook says that he found no traces of Peary in the moving ice, and according to word which was received through Captain Robert Bartlett of Peary's ship, the Roosevelt, late last night, Peary likewise found no signs of his reputed successor. However, this phase of Peary's experiences will not be thoroughly cleared up until a statement is obtained from his own lips.

Unprepared For Good News

In New York little preparation has been made to welcome home Commander Peary, for so suddenly came the news of his achievement, that scientific societies were overwhelmed. While Peary's name is on the lips of everyone, his exploit cannot be discussed from a scientific viewpoint because details of his dash to the Pole are lacking. How fast he traveled, what great obstacles he met and overcame, what observations he took and what data he brings back with him is as unavailable as if he were still in the frozen north.

It is noted generally, however, that the home-coming of the two explorers, practically at the same time, will afford an opportunity for the comparison of records never heretofore presented. For 400 years man has struggled to reach the Pole and now two Americans bring back with them chronicles of their discovery and observations of the land of mystery.

Just as Cook notified his wife, so Peary took advantage of the brief stop at Indian Harbor to assure Mrs. Peary of his safety. This message, almost overlooked during a day of excitement over his achievement, reached South Harpswell, where Mrs. Peary has been spending the summer. It contained both a touch of pathos and a quaint reference to his success. "Have made good at last," says the explorer to his wife. "I have the old Pole. Am well. Love. Will wire again from Chateau."

The message is signed simply "Bert," an abbreviation of Robert, Peary's first name.

Mrs. Peary sent a wife's characteristic reply, with love and a blessing and a request for him to "Hurry home."

By another strange coincidence in this chapter of coincidences, Mrs. Cook, too, was in South Harpswell, Me., when she received the first news of her husband's success. Both she and Mrs. Peary had gone for months without word of their husbands.

Life's Ambition Realized
In reaching the North Pole Commander Robert E. Peary has achieved the ambition of a lifetime. As a boy, his day dreams were of an unexplored land far to the northward, and such printed matter concerning the Polar regions as fell into his hands was read with absorbing interest. He was born at Cresson, Pa., May 6, 1858, but in his early youth the family removed to Maine, where he received his education.

Instructed first in private schools, he subsequently entered Bowdoin college, from which he was graduated with the class of 1877. Throughout his college career and in the years following he made a close study of Arctic exploration, the peculiar fascination which the subject held for him deepening as he matured. As a means of livelihood he adopted the profession of civil engineer, entering the United States navy in that capacity in 1881.

His interest in the mysterious North had not abated, and in 1886 he applied for a leave of absence from the navy, which would permit him to visit Greenland. His application was granted, and in July of the same year he began what proved to be the first of seven expeditions to the north, all

attended with hardship and some of them with actual suffering and want, but persevered in with a tenacity of purpose that challenged the admiration of the world and finally brought him unstinted fame.

Beyond the daring of his exploits, Peary's expeditions have had a scientific and geographical usefulness that has been generally recognized, and he has won the medals of the American Geographical society, the Royal Geographical society of London, and the Scottish Geographical society, honors never accorded in equal number to any other American. In the navy he rose to commander, and the government has recognized the value of his explorations by granting him repeated leaves of absence. In 1903 he was made president of the American Geographical society, and is a member of many other kindred bodies.

Mrs. Peary's Devotion
Commander Peary's domestic life has been so happy that enforced absence from his family has been one of the greatest hardships of his adventures. In 1888, two years after the return from his first visit to Greenland, he married Miss Josephine Diabitsen, who from the day of their union has given his ambitions her unselfish sympathy and co-operation. In fact, Mrs. Peary has upon different occasions accompanied her husband for a considerable distance northward and upon one of these trips a daughter was born to them.

In 1902, after Peary had been absent four years and hope of his survival had been abandoned by many, Mrs. Peary accompanied a relief expedition which met and brought him home.

His "Last Trip"
It is at this point in his history one finds the first note of discouragement. The absence from his family had borne heavily upon the explorer, and on his return to New York he declared that the trip just concluded to the Arctic seas was undoubtedly his last. He attributed his failure at that time to lack of funds.

However, the polar wanderlust again gripped him and his work was continued. Moreover, the funds were forthcoming when needed and his last and successful expedition was better equipped than those which preceded it.

With no hint of his plans for the future, some of Peary's friends nevertheless believe he will soon plan for new worlds to conquer and that a South Pole expedition may be anticipated. In fact it was announced more than a year ago that Peary had planned a national American expedition for the exploration of the South Polar regions.

In the intervals between expeditions Commander Peary has lectured frequently and has also written several books of scientific and geographical value.

Mrs. Peary Hears the News
South Harpswell, Me., Sept. 7.—One of the happiest women in the world is Mrs. Robert E. Peary, wife of Commander Peary, to whom word of her husband's success in reaching the North Pole after twenty-three years of study and hardship, was first brought to her by a press representative, who carried the news in a motor boat from the mainland to Eagle Island, the summer home of the Pearys in Casco bay.

Saddened by the bitter attacks which for the past few days have been brought to her by every mail since an alleged interview with her was published in connection with the report that Dr. Cook had reached the Pole, Mrs. Peary at first denied herself to interviewers.

The press representative was met at the door by Miss Marie Peary, the 16-year-old daughter of the explorer, and was told that Mrs. Peary was upstairs and could not be seen. But the correspondent, fortified with his good news, refused to be cast down and Marie, seeing the happy smile that wreathed the face of her caller, asked quickly: "Have you any news?"

"Yes," he said. "Indian Harbor." The young woman leaned forward eagerly. "Oh, what is it?" she asked breathlessly.

"Your father has nailed the Stars and Stripes to the North Pole," said the man.

Miss Marie clapped her hands excitedly and called aloud to her mother upstairs. "Oh, come down, mamma, come down. Papa has reached the Pole."

"Too Good to Be True"
Mrs. Peary ran swiftly down and approached the correspondent with outstretched hands. Again he repeated the news. Mrs. Peary covered her face for an instant with her hands and exclaimed to the bearer of the great tidings: "God bless you!" And then: "It is too good to be true."

The correspondent quickly convinced her that the news was true, and while he was telling her all the information that had been available up to the time of his leaving the mainland another motorboat dashed up to the shore and a man leaping onto the rocky beach ran up the sharp incline to the pine-girdled cottage on the cliff. It was Arthur Palmer, a West Harpswell storekeeper, with whom Mrs. Peary had made arrangements to have all messages from Peary delivered to her. In his hands Palmer bore the husband's first word to his wife of his success. To this message Mrs. Peary at once sent a reply.

of the Roosevelt from New York on this successful quest to the Pole that Mrs. Peary first learned that her husband's life work had been crowned with success.

Mrs. Peary seemed fairly dazed. For twenty-one years she had waited for just this word. The excitement, the perils, the hardship of the frozen north she had shared with her husband, but the hardest of all had been the waiting. Early in June she had taken her two children and with some attendants had waited on this ten-acre island, the outermost of Casco bay, for the message. For weeks her eyes had been strained toward the mainland for the boat that should bring her the word. There had been many disappointments and now the word had come.

"Oh, isn't it lovely?" she said over and over again, while Marie, standing by her side, helped out with: "This is something great."

"Dad" Is Coming Home
To little Robert E. Peary, Jr., the 6-year-old son of the explorer, the news did not at first seem quite so important as the supplements of some of the Sunday papers which the boat bearing a second correspondent had brought down. This was the chief excitement that the little had looked forward to from week to week to break up the long days on the lonesome island. And he turned eagerly to his mother to show him the funny pictures and tell him the stories. Mrs. Peary stooped quickly to the little man and threw her arm around him.

"Do you know that dad is on his way home?" she asked. "I could not show you these pictures. There is something better than them for me tonight. Dad is coming home." And her eyes were brimming over as she rose to her feet and turned to Marie and said: "Marie, this is a great day." After that the funny pictures lost their charm for little Robert, for it had been a long, long time since he had seen "dad" and now they were to have some more great times together.

ELLEN AND JOYETTE

American Sander Yachts Are Left to
Battle For Taft Cup

Marblehead, Mass., Sept. 7.—The Ellen, owned by Charles P. Curtis of Boston, won the fifth of the International sander boat races off here, and once more America has triumphed over Germany in a contest between yachts of a type fostered by Emperor William.

As a result of the victory of the American craft, the German challenger Hevelia is eliminated from the series, and today the Ellen and the Joyette, the latter owned by Commodore Childs of Brooklyn, will fight a marine duel over a whinward and leeward race to determine which owner shall receive the President Taft cup.

The loser of the encounter, which promises to be a lively one, will win the Governor Draper cup, as both yachts were tied at 17 points in the first four races and by the rules the winner of the chief trophy cannot also receive the cup given by the governor of Massachusetts.

ANOTHER FLOOD IN MEXICAN TOWN

Number of Deaths in Nuevo
Leon Placed at 1500

Mexico City, Sept. 7.—The town of Tula was visited by another flood yesterday. A number of houses were carried away and rich plantations were destroyed. Abject misery prevails in the district.

General Trevino places the deaths for the state of Nuevo Leon officially at 1500. A number of towns on the Rio Grande have not yet been heard from.

BUT FEW ACCIDENTS

Burman, Chevrolet and Knipper Win
Lowell Auto Races

Lowell, Mass., Sept. 7.—Out from a general field of twenty-two racing automobiles, competing in the three events composing the National small stock chassis competition of the opening day of the Lowell Automobile carnival, there emerged victorious Robert Burman, at the wheel of a Buick machine of 30-horsepower; Louis Chevrolet, guiding a car of the same make, of but 18-horsepower; and William Knipper, in a Chalmers-Detroit, of 30-horsepower, respectively.

Burman's win was in a race for the Vesper trophy of 212 miles, which he covered in 3:19:08; Chevrolet's victory was in the event for the Yorick club cup of 159 miles, the finish of which was in 2:56:17, and Knipper won a 127.5 mile contest for the Merimac Valley cup in 2:28:43.

Of accidents there were few. None were serious.

COOK IS COOL AND UNMOVED

Hears of Peary's Success
While at Banquet Table

SAYS IT IS GOOD NEWS

Declares That They Have Been
Friendly Rivals, but the Pole Is
"Good Enough For Two"—Thinks It
Doubtful If Peary Found Tube Con-
taining Records—Path Made Easy
For Other Explorers

Copenhagen, Sept. 7.—Copenhagen was electrified by the report of Commander Peary's announcement that he had reached the North Pole. Dr. Cook said: "That is good news. I hope Peary did get to the Pole, his observations and reports on that region will confirm mine."

It is doubtful if history furnishes a more dramatic episode than the breaking of the news to Cook that Peary has realized the goal of his life's ambition and repeated struggles. Cook was seated at a dinner, surrounded by explorers and correspondents, in the grand ballroom of the Tyvoli casino. Around his neck was hung a garland of pink roses, according to the Scandinavian method of honoring heroes.

Several speeches acknowledging him had been given and repeated toasts to him drunk with clamorous cheers. Amid this scene a whisper went around that Peary had planted the Stars and Stripes at the Pole. Cook was perfectly cool and unmoved. He made a striking speech, in which he paid high tribute to the work of Sverdrup, who sat next to, whose discoveries he largely owed his success; to John R. Bradley, who had financed the expedition; to "the intelligence, endurance and faithfulness" of the Eskimos who had assisted in the preparations and those who had accompanied him. The whole story of the expedition, he said, has not come out and will not come out for some time; nor will it come in installments, but only when it is completed.

Dr. Cook did not permit the whisper which came to his ears of Peary's success to move him in the least, but when he had finished, he was surrounded by correspondents who looked for some sign of emotion, but the explorer said, smilingly:

"I am glad—we have been friendly rivals." Those who have had the best opportunities to become acquainted with Cook here, believe that he is not likely to enter into a controversy with Peary. Sverdrup, who came here for the purpose of congratulating Cook, is a remarkably tactful and careful man. He said:

"There is nothing I can say about this particularly, except that it is most important and wonderful. It seems to me that America is doing wonderfully if two Americans are the first men to get to the Pole after such long struggles by so many men of different nationalities."

After the dinner last night, Cook stood about talking with Sverdrup and the other guests in a most unconcerned manner. Later, with the roses still decorating his shoulders, his hosts led him through the casino grounds to an automobile. A crowd of several hundred surrounded and followed him, cheering, but the people were not able to get near enough to shake hands, because of a cordon of police.

Asked if there was any probability of Peary's having found the tube containing his records, Cook replied: "I hope so, but that is doubtful on account of the drift."

Dr. Cook added: "Commander Peary would have reached the Pole this year. Probably while I was in the Arctic region last year, his route was several hundred miles east of mine. We are rivals, of course, but the Pole is good enough for two."

"That two men got to the Pole along different paths," continued the explorer, "should furnish large additions to scientific knowledge. Probably other parties will reach it in the next years, since every explorer is helped by the experience of his predecessors, just as Sverdrup's observations and reports were an immeasurable help to me. I can say nothing more, without knowing further details, than that I am glad to hear it."

If any evidence is needed to establish Peary's valuation of Cook it can be found in the fact that he is to receive the two highest possible official tokens within his gift. The king is to confer on him the gold medal of merit with the crown, which only three other geographers, Nansen, Sven Hedin and Amundsen, are entitled to wear, and the Geographical society will bestow upon him its gold medal, which has been given to four other travelers only, Nansen, Captain Scott, Hedin and Sverdrup.

White For Governor
Providence, Sept. 7.—The Rhode Island prohibition party held its convention here and nominated a full state ticket, headed by William H. White of Providence for governor.

KITTERY TAKES TWO GAMES FROM P. C. U.

Two Great Games—Greenland Wins from P. A. C.

The baseball fans of Kittery are jubilant over their double victory on Monday when they sent the P. C. U. nine down to defeat. The crowd was one of the most enthusiastic and exciting that has attended the games this season.

It was great ball that both teams put up, and the fans just went wild over the work of their favorites. The umpires had their hands full.

The score:
Innings 1 2 3 4 5 6 7
Kittery 2 0 0 1 0 0 0—3
P. C. U. 0 0 0 0 0 0 0—0

Battery, Holton and Jellison for Kittery. Beauchamp and Barrett for P. C. U.

The score of the afternoon game:
Innings 1 2 3 4 5 6 7 8 9
Kittery 3 0 0 5 0 0 1 0 0—9
P. C. U. 2 3 3 0 0 1 0 0—8

Battery for Kittery, Holton, Wear, Jellison, Driscoll and Beauchamp, Barrett for P. C. U.

GREENLAND 6, P. A. C. 5

A good sized crowd saw Charles Brackett and his boys on the Greenland team defeat the P. A. C. on the Christian Shore grounds on Monday morning by a score of 6 to 5. The game was full of interest, but the visitors put up the best ball.

The score:
Innings 1 2 3 4 5 6 7 8 9
Greenland 1 0 0 4 0 1 0 0—6
P. A. C. 0 0 0 2 0 1 2 0 0—5

Batteries, Quinn and Brackett and Simpson for Greenland. P. Jewell and G. Jewell for P. A. C.

PEACE DAY MEMORIAL SERVICES

Thomas Nelson Page Delivers Able Address at Christ Church Sunday

Peace Sunday was observed at Christ church Sept. 5, commemorating the peace service held in that church on Sunday following the signing of the Russian-Japanese treaty of peace, and it was one of the most interesting events witnessed in Portsmouth. The address was delivered by Thomas Nelson Page, and it was the most able for many years, and it showed much thought and study on the events that lead up to the signing of the famous treaty, and the advance that has been made since looking toward permanent peace.

The church was filled with an interested congregation, including men and women prominent in all the churches. A number of parties came from the beaches to attend the services.

The program as arranged and carried out by Rev. C. L. V. Brine, was as follows:

Thirteenth Sunday after Trinity.
Services: Holy Eucharist, 7.30 and 10.30 a. m. The Peace Service at 5 p. m.
Music at 10.30 a. m.
Processional, No. 1, New Every Morning is Thy Love.
Offertory, No. 199, "O God of Love, O King of Peace." Baker.
Processional, No. 422, "Lead Us, O Father, in the Paths of Peace." Langran.

Music at the Peace Service at 5 p. m.
Processional, No. 457, "Rejoice, the Lord is King." Barnby.
Service of Intercession for Peace.

The Order of Evensong.
Versicles and Responses, Tullis.
Psalter, No. 150, Eight Tone.
Antiphon, "The Angel of the Lord," L. Baumer.
Magnificat, French Tone.
Anthem, "If Thou But Suffer God to Guide Thee," Johannes Jeacue.
Peace Address, Thomas Nelson Page, Esq.
Offertory, No. 223, "Hail to the Lord's Anointed," Webb.
Te Deum, H. W. Gerrish.
Sevenfold Amen, Staines.
Processional, No. 450, "All Hail the Power of Jesus' Name," Coronation.
No. 198, "Our Father's God to Thee," America.

COME AND JOIN THIS CLUB

A club is now forming where you can save 60 cents on every dollar that you expend for the necessities of life, in one of the large Mail Order houses in the United States. All will be explained at Gen. H. Tripp's, 4 Penhallow street, Painter and Paper Hanger. Open evenings from 6 to 7 o'clock.

A lazy liver leads to chronic dyspepsia and constipation—weakens the whole system. Doan's Regulants (35 cents per box) correct the liver, tone the stomach, cure constipation.

The brick and stone masons had an outing at North Rye beach Labor Day.

KITTERY LETTER

Continued from page one.

and left this morning to take up his new duties.

Miss Allison Locke sang a solo at the Sunday morning service at the Second Christian Church.

Samuel P. Knight left Monday evening for Lynn to take a position with the General Electric company.

Warren Luttis of Malden, Mass., passed Labor Day as the guest of Mrs. Henry Luttis of the Rogers Road.

The Kelly-Mayhew nuptials occur on Wednesday.

Mrs. Moses Downing of Boston is visiting Mrs. Rosa Ames of Kittery Depot.

The wedding reception of Mr. and Mrs. Guy Wilbur Ames, who were married September 1, occurred on Monday evening at their home on Pine street. The guests later adjourned to Grange Hall where a magnificent repast was partaken of. The whole affair was a delightful one and Mr. and Mrs. Ames have multitudinous wishes for every happiness.

Mrs. Lizzie Mitchell, who has been visiting Mr. and Mrs. Charles T. Bailey of Perry Lane, has returned to her home in Beverly, Mass.

Mrs. Wilbur Shaw of Portsmouth visited Mr. and Mrs. Henry B. Shaw on Sunday.

The Rebekahs hold their regular meeting in Odd Fellows' hall on Thursday evening.

Mr. and Mrs. Mervin C. Ford of Locke's Cove left Saturday on a two weeks' visit to Mr. Ford's former home in Fayette, O.

Mr. and Mrs. Frederic A. Bradbury, Winifred P. Bradbury and Arnold L. Bradbury today closed their summer home at the intervenc and returned to Dover.

Leon G. Young of Portsmouth was the guest of Calvin L. Hayes on Monday.

T. E. O. Marvin, who has been visiting at Sunapee, N. H., returned Saturday to the summer home of his son, Winthrop L. Marvin, on Jamaica Island.

Constitution Lodge, Knights of Pythias, holds its regular meeting this evening in Odd Fellows' Hall. From the 7.30 car to Badger's Island, Saturday night, in charge of Motorman J. Paul Graham and Conductor Edgar Sewall, a woman, fell near Ferry Lane and was considerably shaken up. On the return trip a man fell and had his face badly cut while leaving the car. It is alleged that both persons alighted while the car was in motion and without signaling the conductor.

Mrs. Rundlett and granddaughter, Dorothy Russell, of the Rogers' road, have returned from a short visit in Portland, Me.

Carlton G. Luttis of the Rogers Road has returned from a visit to The Welts, N. H.

Calvin D. Dunbar of Government street has joined his wife and son Norman at Sunapee, N. H., where Mrs. Dunbar's health is reported as much improved.

Mr. and Mrs. John J. Handley and daughter, Blanche of Haverhill, Mass., were guests of Mrs. Hoadley's mother, Mrs. Emily J. Morse of Whipple Road over Labor Day.

Mr. and Mrs. Wesley Cogan of Everett, Mass., passed the holiday as the guest of Mr. Grogan's father, William Grogan of Rogers Road.

Ralph Barker has concluded his duties as motorman on the Atlantic Shore Line.

Trapp Academy opened this morning for the fall term. The teaching force is the same, but numerous changes for the better have been made in the course of studies.

Fireman Morris J. Fletcher of the steamer Alice Howard left today for a week's stay in Boston.

The two baseball games on Saturday between the Cherokee Indians and the local team resulted in favor of Kittery. The evening game was certainly out of the ordinary and was witnessed by a large crowd.

Kittery Point.

Kittery Point correspondent's telephone 297-5.

A team driven by Howard Collins ran over Capt. Daniel Frisbee in the street in front of his residence at nine o'clock Monday evening and he was badly injured. The aged man being deaf, failed to hear the approach of the rubber tired carriage and was knocked down and rendered unconscious. He was speedily taken into the house and Dr. E. B. Shapleigh attended his injuries, which it is sincerely hoped may be attended by no bad results.

Mr. and Mrs. Morton M. Seaward are receiving congratulations upon the birth of an eight pound son.

who came into the world at two o'clock this morning.

Mrs. Everett J. Moulton has returned from a visit in Norridgewood, Me.

Mrs. Nona E. Emery is visiting relatives in Brickett, Mass.

Cecil L. Seaward has concluded his duties with the Kittery Press Company in Dover and returned home.

Charles E. Phillips, Jr., of the F. L. Harding Fish Company, Boston, passed the holiday with his parents here.

Sidney B. Frisbee of the Couch and Barnes Electrical Company, Boston, passed Labor Day with his mother, Mrs. Josephine Frisbee.

Mrs. Nettie Bryant, who has been visiting her foster father, Capt. Walter S. Ames returned Saturday to her home in Tampa, Fla., by way of New Bedford, New York and Albany.

Capt. Parker J. Hall of Duxbury, Mass., the famous lone navigator, is in port in his schooner Angler, bound from Gloucester to Calais to land lumber for Nantucket.

Geraldine Getchell, the little daughter of Mr. and Mrs. Frank E. Getchell, is improved from an illness.

Mrs. John H. Pruett has closed her cottage on Chauncey's Creek and returned to her home in Brooklyn, N. Y., for the winter.

Ernest E. Tobey has joined his wife at Woods Hole, Mass., where she is visiting her parents.

Mrs. Chester Emery has been visiting relatives in Portland.

Mr. and Mrs. Walter Tobey of Lynn, Mass., are visiting Mr. and Mrs. Nathaniel C. Nutter.

Joseph Pruett, first officer of the New York steam yacht Admiral, now lying at Beverly, passed the holiday with his family here.

Harold W. Frisbee has returned from a trip in Moultonboro, N. H.

Mr. and Mrs. Stephen L. Favour and daughter Marion, who have passed the summer with Mr. Favour's parents, Mr. and Mrs. Charles L. Favour, have returned to their home in East Boston.

Mr. and Mrs. Frank Rote and daughter Eleanor of Portland are visiting Mrs. Pote's mother, Ma. Ellen A. Billings.

Mrs. Fred J. P. Chase and daughter Gladys have returned from a visit in Charlestown, Mass.

Miss Mildred F. Coes passed Monday in Boston.

Mrs. Susan D. Bartley, who has been occupying the old Congregational parsonage through the summer, has returned to her home in Derby, N. H.

Fred Rollins and daughter, Miss Amy, who have passed the summer at their cottage here, returned Monday night in their touring car to Concord, N. H. The remainder of the family stay a week longer.

Edward Cole and son Ralph of Dover, who have been occupying the Fairway cottage on Fishing Island, have returned to their home in Dover.

Miss Catherine Leahy and Miss Margaret Rossiter of Dover and Miss Elizabeth Kane of Portsmouth passed Sunday with Mr. and Mrs. John W. Randall.

Miss Bertha Seaward has concluded her duties in the postoffice to resume her studies at Traip Acad. Emory.

Frank E. Getchell and Cecil L. Seaward made a trip to Exeter on Monday in their speed boat Adieu.

Capt. T. F. Crowley of the sloop Mystic Belle landed an 800-pound man eating shark in his nets Saturday and his eight feet or more of length attracted much attention as he lay on Randall's wharf. Two hours' fight subdued the monster, which ruined two nets in its struggles.

Leslie F. Bickford has concluded his services in Frisbee Brothers' store.

Alden Pinkham has returned from a visit to Boston.

Misses Mary and Amy Rollins and Hattie and Ella Wardner were in Dover Sunday.

Frank A. Mace has taken a position as baggage master at the depot.

Rev. E. P. Moulton has arrived from Melvin Village, N. H., with his family to take up his pastorate at the Free Baptist church. Rev. E. B. Stiles, who has been occupying the pulpit during the summer, has departed with his family to their home in Alton Bay, N. H.

W. C. Caldwell has concluded his duties as conductor on the Atlantic Shore Line.

In Dr. Jasper J. Garmany's touring car Miss Jean Garmany, Miss Margaret Williams and Mackenzie Garmany made a trip to Manchester by the Sea on Monday.

Wilbur Negus passed Monday in Boston.

Miss Bertha Raitt of Eliot and Harold Getchell of South Berwick visited Mr. and Mrs. Frank E. Getchell on Sunday.

The new torpedo destroyer Musser was off the harbor again on Monday.

The steam yacht Kaleida, owned by H. H. Keyser of Baltimore, was in port over night.

Arrived, barges Phoenix, Franklin and Easton, with 1500 tons of coals for Portsmouth.

Principal John W. S. Hodgdon of the Horace Mitchell school has purchased Richard Hardy's motor boat. Hiram Thompson passed Sunday and Monday in Boston.

William Seaward will on Wednesday enter the Plymouth Business College.

The cement blocks for the new fire house on Railroad avenue have arrived.

Capt. and Mrs. William C. Williams are in from Boon Island with their daughter, Mrs. Mabel Luther, who returns to her home in Fall River, Mass., after summering on the island.

William A. Symonds is enjoying a vacation of two weeks from his duties as engineer at the Atlantic Shore Line power station.

Howard Mitchell of Rochester, Mass., visited his brothers, Joseph H. Mitchell and Hyland G. Mitchell, here, over the holiday.

H. N. Van Dyke left today to resume his duties as registrar of Princeton University after passing the summer at his cottage on Oerish Island. The family remains until the end of the month.

The people of the Congregational parish at Kittery Point are requested to meet at the old parsonage on Wednesday evening, Sept. 8, at seven o'clock, to see what action they will take pertaining to a social affair of much interest. If stormy Wednesday, the next fair night.

Miss Frances Glidden this morning entered the employ of Archie L. Wager, the baker of Kittery.

A SQUARE DEAL AND A SQUARE MEAL

Here's a square deal for the people who can't eat a square meal without after pain and distress.

Go to G. E. Philbrick today and get a 50 cent box of Mi-o-na tablets; the great prescription for indigestion and stomach troubles.

Take one, or if your suffering is intense, two tablets with or after meals and at the end of 10 days if you can't eat a square meal without distress go to G. E. Philbrick and get your money back.

That's where the square deal comes in.

But Mi-o-na is really a stomach up-builder of great merit; every day the makers receive more than a dozen letters from grateful people which state that after losing hope Mi-o-na cured.

The quick and positive action of Mi-o-na on the stomach in case of gas, water, brash, sour stomach and heartburn is worth a lot of money to any sufferer.

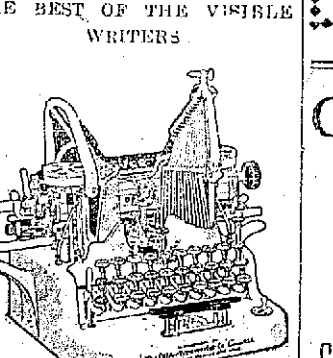

E. D. Howe, Gardner, Mass., says: "I suffered from severe pains in my stomach. I tried different remedies without relief; after using two boxes of Mi-o-na I found myself completely cured."

Mi-o-na is sold by leading druggists.

HYOMEI

Cures catarrh or mucus in the throat. Complete outfit including inhaler \$1. Extra bottles 50c. Druggists.

THE BEST OF THE VISIBLE WRITERS

Sold on Easy Terms by J. E. DIMICK JR., 9 Tanner Street Typewriters to let and supplies of all kinds.

FOR RENT—Six room cottage either furnished or unfurnished. Suitable for parties wishing to finish out the season or for winter occupancy with use of barn or garage if desired. Phone 271-3 or write W. H. Keepers, Box 632, 27, 28, 29.

Every Mother Knows

what a boy's suit should be—in regard to material, tailoring, fit and appearance. So our XTRAGOOD clothes please every mother who comes here.

Mothers want durable clothes. XTRAGOOD clothes are universally considered superior; made with more care and of better fabrics than the brands usually sold.

We sell XTRAGOOD clothes because we can give you more value for the money you spend. We can give you more satisfaction as well.

This is the only store in town selling this make.

Come and see where the difference lies between

XTRAGOOD

and other

boys' clothes you've had.

CHRISTIAN SCIENCE

(Continued From Page One.)

city. They raise every calling. The humblest calling becomes significant in the hands of the man who proposes to work out the best within him with the power God has given him. There is not a law that holds families together, there is not a principle that binds man to his fellow-man, that is not in some way touched and affected as to lift man out from the realm of nature into that faith relationship with Jesus, the Son of God.

One of the teachers of the Gospel, whose consecrated life for more than forty years for a fuller and higher and deeper interpretation of the Gospel, is Mrs. Eddy. I entertain the highest regard for her and her labors. For the Christian Scientists church, for its members, and for the work they are doing, I entertain the highest regard. Today, I count myself happy for the privilege to be present with this large and representative gathering to hear one competent to speak upon the subject of Christian Science. I take pleasure in presenting Prof. Hering, of Boston.

Professor Hering held the large audience for over an hour in one of the most interesting talks that have been heard at Music Hall for many years. He knew his subject perfectly and he was interesting throughout. His address was entitled "Christian Science as Science of Salvation," and was as follows:

By Professor Hermann S. Hering, D. D.

In addressing an intelligent audience upon the subject of "Christian Science: The Science of Salvation," it is well, first of all, to reach a mutual understanding as to the meaning of the terms. Science means exact, systematized, and demonstrable knowledge of facts, laws and causes, while according to Smith's Bible Dictionary salvation means "deliverance from temporal evils and earthly destruction," in other words deliverance from evil. Hence "The Science of Salvation" means in substance that demonstrable knowledge which affords deliverance from evil.

Salvation to Be Worked Out
St. Paul admonishes us to work out our own salvation with fear and trembling. This Scriptural command means far more than the common belief that salvation is assured by simply having belief or faith in Jesus as the Son of God. Such saving faith is vitally necessary, but it is only the beginning of our salvation—its spiritual basis.

Then must follow the working out of our deliverance from evil, our separation from sin, from the bondage of this world, from limitation, failure, sickness, disease, death.

"Saying faith," the recognition that Christ Jesus is the Son of God and that he brought salvation to all mankind, includes not only the glad acceptance of what Jesus was and did, but of what he said we can and must do. He said, "I am the way, the truth and the life," and he also said "He that believeth on me the works that I do shall he do also."

Working out our own salvation means to secure the mastery over the ill of this world, to destroy them by the demonstrable knowledge of God received through Christ Jesus and to establish harmony, health, happiness in every day life. Hence our salvation is not fully worked out until we have dominion over all discord and everything that causes it. This necessarily includes dominion over matter and its laws, to which we are in such bondage, dominion over

Notice to Teachers.
How Children's Head May Be Kept
Clean and Free From
Disease Germs

One of the greatest problems that a teacher has to solve is to keep the children's heads clean. One child with an infection or with vermin in its head is likely to infect the whole school. The hair is the commonest vehicle by which disease is communicated. Germs and microbes are carried on the hair of children from infected homes to the school room, and if the truth were really known it would be found that this is the method by which epidemics are often produced. Teachers should understand that Birt's Head Wash, the new scientific preparation, is intended for exactly a condition of this kind. It is made of refined soap, rosin, eucalypti, glycerine, white of eggs and salicylic acid, which prevents the development of bacteria, and germs and overcomes putrefaction and removes disagreeable odors. A child's head and hair should be cleansed regularly with Birt's Head Wash and kept free from vermin, dandruff and all kinds of disease germs. There is nothing on the market so well adapted for this purpose and a teacher can serve the community and the public in a high degree by recommending Birt's Head Wash to the parents of children. In some instances, school teachers write the name Birt's Head Wash on a slip of paper, hand it to the scholars, and tell them to have their parents buy it in the drug or department stores. Each teacher will at once recognize the therapeutic properties of Birt's Head Wash from the formula, and realize there is no risk in recommending it to their scholars.

evil and its sensation, sin and sorrow, dominion over death and its terrors. It means to attain to perfect harmonious living, to bring about God's kingdom on earth.

Unless we work out our salvation we will not gain the victory over the world, the flesh and the devil, as we are commanded.

If mere faith or belief in Jesus is all that is necessary for salvation, why are so many promises in Revelation made to "him that overcometh," and especially

"He that overcometh shall inherit all things; and I will be to his God, and he shall be my son?" (Rev. 21:7).

It is our aim to show that Christian Science is the Science of salvation in and through Christ; that it reveals the principle of being and awakens that spiritual understanding which enables us to work out our own salvation practically and effectively; that it discloses the cause and origin of discordant conditions here on earth; the nature of the bondage that holds us to evil; that it reveals the absolute truth of being, the truth about God and His universe, including man, and the modus operandi, by which we can proceed to free ourselves from evil and attain true manhood and womanhood, in "the liberty of the sons of God."

Salvation Through Mind
In working out our salvation we must first see that salvation or deliverance from evil is a mental process, takes place in mind; that it is a transformation through Mind and that it is both ethical and philosophical.

The Bible declares that "to be carnally minded is death; but to be spiritually minded is life and peace."

All will admit that evil is primarily mental; that evil aims, and purposes, all misjudgment, hatred, envy, jealousy, are mental, and that the correction of these mental conditions must be mental, through education and experience, the awakening and establishment of right thought.

If law is mental the supposed law of disease must be mental. Therefore such wrong law can be altered, corrected and repealed by the law of Truth and right, the law of God.

We are all familiar with the physical effects of fear, anger and other strong emotions. Such effects having a mental cause obviously can be healed mentally and Christian Science teaches that all disease, whatever its name or nature has a mental origin and is a mental phenomenon, an experience of the mortal material human mind, which is healed by the divine Mind.

Objection to Giving Up Matter
This leads to the troublesome question, What shall we do with matter? The world has always resisted strongly the idealistic teaching of the supremacy of Spirit over matter, which is taught everywhere in the Bible; and one of the leading objections to the Bible today is this, that many of its statements are visionary and impractical; in fact, the endeavor has been made to discredit Bible records of spiritual demonstration and to explain them materially, or flatly deny their reliability.

In "Retrospection and Introspection" Mrs. Eddy says:

"During twenty years prior to my discovery I had been trying to trace all physical effects to a mental cause; and in the latter part of 1866 I gained the scientific certainty that all causation was Mind, and every effect a mental phenomenon."

The importance of the mental factor, the power of mind in human affairs, is being more and more generally conceded and the day is hastening on when the truth of Mrs. Eddy's statement will be recognized.

The world hesitates to admit that matter is only a mental phenomenon because such admission refutes matter's fundamental claim to be substance and life. Especially is mortal thought disinclined to consider that the divine Mind and its ideas alone are real and that human phenomena are merely projected human concepts, because this means that a large part of what the human mind has believed to be true must be classed as false.

Regarding Material Causation.
Christian Science teaches that matter and material existence are phenomena of mortal mind, a concept of existence obtained through the physical senses, a misapprehension of reality held by human consciousness when unenlightened by Science, an appearance instead of an actuality. It is simply an imitation or counterfeit.

Now it is not the appearance but only the original that has power, intelligence and substance. The manifestation of growth, action or being in matter is but a material concept of spiritual facts.

The objects, action and power expressed in a "moving picture" are not in the picture and we do not associate them with the picture but with the original which the picture reproduces. Similarly, life, growth, action, power, substance, law, etc., are not in matter, physical existence or the material consciousness; but in the divine Mind, the only cause and Principle of being, and should be so thought of.

When we recognize God as the only Mind, the only cause, Truth is reflected in consciousness and existence is harmonious. When we believe causation to be material or in mortal mind, we put our trust and dependence in a shadow, a false belief, and existence so-called, is discordant, liable to disease, disaster, death. In order to work out our salvation we therefore need to understand causation.

Consciousness is Existence
Our conscious existence is obvious by what we are conscious of. Of our

real existence we may not be conscious. Everything that we know or see or believe, all our thoughts, acts, or experiences go to make up our universe, our sense of existence, our consciousness.

As we gain our concept of existence largely through the physical senses, it is very important that we be able to weigh and sift their testimony. We all know how deceptive these senses are. The distant houses are not actually small because it seems to be so, neither does the sun move because it appears to move. So also hearing, taste, touch and smell are all fallible. In fact, the impressions received by the senses and recorded mentally require explanation and rectification to make them coherent and intelligible.

These senses bring to our consciousness only impressions, from which we form a concept of things. If therefore the testimony of the physical senses is so unreliable and unsatisfactory it is apparent that the consciousness gained through these senses, cannot be true and reliable.

Matter A Sense Impression.
Material objects may be defined as objectified mental impressions, and since material sense is unreliable and untrue, these impressions are a seeming only, that is counterfeits of reality.

What is the true nature of substance, or what is back of these appearances, material sense does not and cannot determine. Only a sense that can perceive truth and reality can declare this: A mortal's universe is a projection of the concept of existence which he has obtained through his five senses and through the educational influences of his childhood and youth.

If we can see existence as mental instead of physical, we have taken a great step toward. The next step is to learn what is true and real and thus correct our impressions and obtain a truer consciousness of existence.

The Mortal Body is Mental

Through Christian Science we are beginning to understand that the mortal body is mental; that it is an embodiment of conscious and unconscious mentality, the developed mortal thought of self hood; the externalization of a personal sense of physical being. This explains why it is so responsive to thought.

The prevailing belief that life is matter, in a mere sense-impression, accounts for the ill of the flesh. Is it any wonder that the body aches out under the strain put upon it so long as we declare that our life depends upon it, upon a false concept that cannot even sustain itself? Think of the responsibility, the burden, we place upon it, making it not alone our dependence in normal living, but also the scapegoat of all excesses! Is it any wonder it does not "make good?"

We take an advanced step when we see that the body is mental instead of physical and that we do not live in a matter-body but in consciousness.

Bodily conditions are relieved in so far as we realize that God, the Infinite, divine Principle, is our Life.

Mrs. Eddy says in Science and Health (Page 14),

"Become conscious for a single moment that life and intelligence are purely spiritual—neither in nor of matter—and the body will then utter no complaints. If suffering from a belief in sickness, you will find yourself suddenly well. Sorrow is turned into joy when the body is controlled by spiritual life, Truth and Love."

What is Mind?
The ordinary human concept of mind is that which thinks, feels or wills, the intellect, or the activity of the brain. Christian Science reveals the fact that Mind is divine Principle, the infinite Life, Truth, Love, omnipotent, omniscient, omnipresent, the all-inclusive, eternal, unchanging, all-wise being, the only cause and creator.

This is a very different Mind from that which is supposed to result from the action of the gray matter called brain.

Christian Science makes it clear that material existence is not the manifestation of this divine Mind, but the phenomenon of the counterfeit, called mortal mind.

It is this false concept of existence that does all the wrong thinking; that believes in sin, disease and death; that claims there is life and intelligence in matter.

Since God is Mind, this Mind is good, and its effects must always be good, never evil. As real thinking is the activity of the divine Mind, the only real thoughts or ideas are good. Therefore everything that is evil, pertains to evil or results in evil is not Mind nor included in Mind; hence is not real. Human thought, will, power, hypnotism, mental suggestion or magnetism are all capable of evil and hence are not Mind or the activity of Mind, are not of God, and so are not good but essentially and entirely evil.

Healing Methods
The difference between the method of healing through mental suggestion, or hypnotism, and that of the divine Mind, the Christ healing, must be clearly seen.

When the effort is made to heal by suggestion, the operator endeavors by means of hypnotism to make the patient believe that he is not sick. He attempts to change the belief but the cause of disease remains and in time manifests itself even in worse form.

The patient is no better off, he has not risen in the scale of being, he has not more manhood, or moral courage, and does not know any more about

God and His Christ than before.

How is it possible for anyone to believe as has been said, that Christ Jesus healed through hypnotism, when hypnotism is the dominating activity of the carnal mind, and the Bible declares "The carnal mind is enmity against God?" How could Jesus as the Son of God use a power that is opposed to God? He said "Of mine own self I can do nothing. The Father in me doeth the works."

It may be needless to say that the teachings of Christian Science are in no wise the same as those of the Emmanuel Church Movement. The promoters of that movement themselves have emphatically declared this:

Christian Science: Healing

The true Christian Scientist reflects the divine Mind, stands on the basis of God, man and the universe as Spirit and spiritual, as Love and its manifestation, as Mind and its ideas—perfect and harmonious. Hence he understands the unreality of matter and evil and knows that man is not sick but that the patient is simply suffering from a false mesmeric belief. From that standpoint he proceeds to correct the errors of belief with the Truth of being and thus establishes harmony on a spiritual, scientific basis.

The patient is not improved merely physically, but morally and spiritually as well, because the divine Mind, God, has reached his consciousness. His belief in matter, sin, and disease is lessened and the understanding and love of God, of His Christ, and of the Bible is greatly increased. He has begun to let that mind be in him which was also in Christ Jesus, the "second mind" which St. Paul declared God has given us.

Thus it is seen that it is not the human mind that does the healing, but divine Truth which is brought to bear upon the case by reflection. Truth is reflected by knowing. The human mind reflects Truth by knowing Truth, knowing God aright.

This is a cardinal point in Christian Science healing, that it is God, divine Mind that does the healing and not human thought. In Christian Science healing the human sense serves only as a vehicle for Truth. It is the Truth alone that effects results.

Two-Fold Process in Healing

Another cardinal point in Christian Science healing is that it works from the standpoint of the unreality of matter and evil, and thus proves the aliveness and supremacy of God. It includes the knowing and affirmation of Truth; the recognition and denial of error.

Some people do not understand why it is necessary to deny matter. The reason is simply this, that the belief in the reality of matter seems so strongly established in human consciousness through heredity, environment and education that the mere acknowledgment or declaration of the aliveness of God does not always begot the conviction of the unreality of matter; and the specific denial of matter aids in destroying or lessening this claim in the human consciousness.

Cause of Sickness and Sin

Sickness is the result of mesmerism, illusion. The human thought listens to the arguments of mortal mind instead of refusing to believe them, hence its ill. The sick are asleep in the mesmerism of material sense and need to be awakened to man's true existence as God's child. Christian Science shows us the way to do this.

So also sin and all evil are meretricious illusion. Sin is indulged in because the sinner believes that there is some good or pleasure in it, some advantage to be gained by indulgence. This belief in evil's reality and the pleasure it promises is its only strength, and when Christian Science reaches the thought of the sinner and convinces him that sin confers no pleasure and is but an illusion, and that indulgence in it results only in suffering and bondage, the foundation of his belief is broken and through the Christ love he awakens to a new life and is healed. If God is the Infinite, all is omnipotent, omnipresent, omnipotent good, as the Bible teaches, evil can have neither power nor existence.

Jesus said of evil simply, "It is a liar and the father of it," and he proceeded to solve the problem of evil in the only way it can be solved, viz., by denying and destroying it.

Mrs. Eddy, Loved and Honored
It is not to be wondered at, indeed it is inevitable, that Christian Scientists should love Mrs. Eddy for having brought to the world this Science of Salvation, the true knowledge of God and man; the spiritual understanding of the Holy Scriptures which enables them to know themselves and to demonstrate that "saving faith" which alone leads to heaven.

We love her not only for the revelation of the demonstrable Christ Truth, which is contained in her wonderful book "Science and Health with Key to the Scriptures," and her other writings, but for her consecration and devotion in continuing to lead the great religious movement, she has inaugurated. She has remained steadfastly at her post of duty and continued to instruct, guide, advise, admonish her followers, and to tend on her great Cause in its steadily progress.

Those of us who have known her personally and who have had the great privilege of being under her supervision realize in some degree what an extraordinary woman she is. Her spirituality, her love to God and her desire to be obedient to Him, and to follow the example of the Master—these characteristics make her the great Leader that she is.

Mrs. Eddy did not simply state her discovery to the world, she first demonstrated it and then offered it as a demonstrable Science for all mankind to profit by. This Science overcomes evil by giving a true knowledge of God and His Christ, it enables all humanity to work out their own salvation and reach that pure consciousness, which Jesus called the "kingdom of heaven."

Closing Appeal

"Glory be to God, and peace to the struggling heart! Christ hath rolled away the stone from the door of human hope and faith, and through the revelation and demonstration of life in God, hath elevated them to possible agreement with the spiritual idea of man and his divine Principle, Love." (Science and Health, p. 45.)

The stone of material sense has been rolled away and the possible agreement with Truth and Love has been demonstrated. The truth about God and man and the universe has been revealed to the human understanding, and the hounding Christ is at our door.

A measure of this true understanding has already been attained, and by entering into the closet and closing the door of material sense, by thinking lightly about God and his reflection, realizing the spiritual fact and denying matter and all evil, we can purify consciousness, obtain clearer and safer views, experience greater freedom and harmony, better health, improved morals, and a final overcoming of all evil.

In closing let me read to you Mrs. Eddy's scientific statement of being, which epitomizes the Science of Salvation.

"There is no life, truth, intelligence, nor substance in matter. All is infinite Mind and its infinite manifestation, for God is All-in-all. Spirit is immortal Truth; matter is mortal error. Spirit is the real and eternal; matter is the unreal and temporal. Spirit is God, and man is His image and likeness. Therefore man is not material; he is spiritual."

PERSONALS

Daniel R. Pickering of Worcester, Mass., is visiting his brother here.

Miss Mary Dow is the guest of friends in Philadelphia.

Charles Abbott of Boston is visiting his former home here.

P. R. Jellison is in Lowell to witness the auto races.

CLYDE FITCH PASSES AWAY

**End Comes in France to
Playwright**

Chalons, Sur-Marne, France, Sept. 4.—Clyde Fitch, the American playwright, died at 9.30 this evening. He had been unconscious since 3 o'clock in the afternoon.

The doctors and his friend, Eugene Gauthier, were present at his bedside. Death was due to appendicitis, following an operation. Mr. Fitch was stricken with an acute attack while traveling from Germany, and upon his arrival here underwent an operation at the hands of Dr. Alquier.

The patient rallied somewhat and yesterday showed some signs of improvement. He suffered a relapse last night, however.

Clyde Fitch was the most prolific playwright in America and, consequently, the wealthiest and most successful. Furthermore, he was looked upon as among the younger leading dramatists.

BOARD APPOINTED

To Locate New Marine Barracks.

An impression prevails at the navy yard that the department will in the near future erect one of the largest marine barracks, if not the largest, at any of the government yards. The barracks now in use are said to be inadequate, not possessing proper quarters for officers or men.

Owing to the large increase in the guard, made necessary by the two prison ships Topaka and Southern, and the naval prison, it is believed that the better quarters will soon be forthcoming.

Recently Major Harry Leonard, U. S. M. C., commandant of the naval prison, sent a letter to the department outlining the state of affairs and as a result a board of investigation, consisting of Civil Engineer White, Naval Constructor John G. Tawressey, Col. T. P. Kane, U. S. M. C., and Major Harry Leonard, U. S. M. C., was appointed. They have examined a plot of land on Seavey's Island, which will afford ample room for barracks, parade and drill grounds, and have so reported to Washington.

Cures baby's croup, Willie's daily cuts and bruises, mama's sore throat, grandma's lameness—Dr. Thomas' Electric Oil—the great household remedy.

U. S. S. RAINBOW SALVAGED

Victoria, B. C., Sept. 7.—The United States supply ship Rainbow of the Asiatic squadron, floating helplessly with her machinery disabled in the China sea off Pedro Blanco, nearly 200 miles from Hongkong, was picked up Aug. 12 by the steamer Antiochus. It was reported that the mishap was due to a boiler accident.

DIED

In this city, Sept. 6th, Helen E. Oxford, aged 2 years, 9 months. Daughter of Mr. and Mrs. Howard E. Oxford, Greenland Road.

FAIR EXCHANGE

A New Back for an Old One—How It Is Done in Portsmouth

The back aches, at times with a dull, indescribable feeling, making you weary and restless; piercing pains shoot across the region of the kidneys, and again the loins are so lame to stoop is agony. No use to rub or apply a plaster to the back in this condition. You cannot reach the cause, discharge the bad back for a new and stronger one. Follow the example of this Portsmouth citizen.

George S. Chandler, 61 Pleasant St., Portsmouth, N. H., says: "I do a great deal of walking in my work and in this way my kidneys became weakened, causing me a great deal of suffering. About three years ago I learned of Doan's Kidney Pills and began using them. This remedy cured me of kidney complaint and I have had little trouble of the kind since. Sometimes when I overwork or do any heavy lifting, I notice a slight lameness in my back but on such occasions, a few doses of Doan's Kidney Pills bring the desired relief. I have recommended this excellent remedy to many of my friends and in each case where it has been tried, benefit has followed. Doan's Kidney Pills can be procured at Phillips' drug store, and should be given a thorough trial by every kidney sufferer."

For sale by all dealers. Price 50 cents. Foster-McMillan Co. Buffalo, N. Y., sole agents for the United States.

THE D. F. BORTHWICK STORE

AT NAVY YARD

Sailors' Good work At Fire

Numerous Officers Take Physical Test

Astronomical Instruments are Now in Place

Many Officials Want Civilian Crews on Navy Tugs

Sailors at the Fire
Much praise was heard at the fire on State street on Monday for the work of the sailors of the ships at the yard who jumped in at the start and worked until the recall was sounded. The men were from the Hist, Eagle, Marietta and Topaka. E. J. Bailey and G. E. Pratt of the last named ship did especially heroic work.

Think Change Would Do Good
Not a few of the officials of the navy have expressed themselves regarding the matter of crews for navy tug boats especially those permanently stationed at navy yards. They do not hesitate to say that they are certain the service would be improved in more ways than one if these boats were handled by civilian crews.

Putting in the Instruments
The instruments for the observatory recently erected at the yard were put in place today under the supervision of the commanding officer of the U. S. S. Blat.

Looking Over the Station
Rev. Herbert E. Henson of Westville was a visitor at the yard today.

More for the Floating Prison
Fifteen court martial prisoners from the Norfolk navy yard were sent here for the prison ships on Monday.

Clifford Takes Time Off
Fireman John Clifford at the naval prison is enjoying a furlough which he is passing at his former home in Newburyport.

Civilian Says Not He
The escape of the prisoner James Sweeney last week is said to have been put up in part to a civilian employee of the yard who absolutely denies everything connected with the affair. The investigation regarding the matter is now on.

The Walking Fever on Again
Once again the walking epidemic is on among the yard and ship officers. A greater number of them will do the fifty mile hike by foot while a few will try to do the hundred mile stunt on a bicycle as prescribed by the department. In one case a wife of one of the local officials thinks she can make a record and it is said will give the road a wait with her better half.

Philbrick for Electrical work.

PERSONALS

C. A. Lowd has returned from Lowell.
Mrs. George F. Richards of Exeter was here today.

Mayor Edward H. Adams is in Alfred, Me., today.

Joseph Burke, a well known Portsmouth boy, for many years located in Boston and Cambridge, has been passing a few days in this city. The visit of Mr. Burke was the first in twenty years.

RECORDS OF RYE

Holiday Events and Visitors in the Beach Town

The Ocean Wave House is Closed for the Season

Rye, Sept. 7.
Mr. and Mrs. William Perry and daughters Esther and Eleanor of Haverhill, Mass., were guests of Mr. and Mrs. Arthur Foss and family at Rye North Beach over the holiday.

The Crescent club dance on Friday night was a decided success. Nichols of Portsmouth catered.

The D. D. club held its annual outing at Rye Harbor on Monday. A lobster holi was enjoyed by all.

Mr. and Mrs. Julius Fraser of Lynn, Mass., are passing several days in town visiting friends.

The annual picnic of the Junior Order United American Mechanics will be held on Wednesday at Rand's Grove, on the Cable road. Arrangements have been made for a good time and the only thing needed to make it a success is good weather.

A party of Boston men held a very successful gun shoot at Rye Harbor on Monday.

The Ocean Wave house at North Rye Beach closed today after a most successful season.

Miss Bessie Varrell, bookkeeper at H. B. Philbrook and company, Portsmouth, passed the holidays at the home of her mother at Rye Harbor.

HORSE RACE AT YORK

Irene Leads Them All on the Turf in a Lively Race on Monday

A good number of local horsemen went to York Beach on Monday to witness the horse race. They got a surprise in Irene, the bay mare owned by W. T. Meloon of New Castle. She spreadeagled her field and made the others think they were anchored.

Tom McWilliams, who handled the ribbons on Irene is receiving many compliments in winning the race with a bunch said to be combined against him.

A neat little sum changed hands on the result and on the whole the race was very pleasing to those who watched the work.

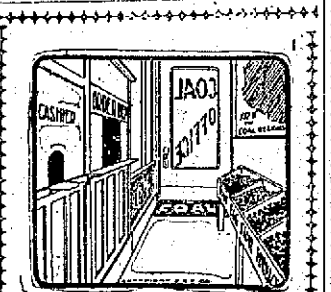

BIRTHDAY PARTY

Miss Doris Louise Smallcon, daughter of Mr. and Mrs. George P. Smallcon of Walker and Dennett streets, was eight years old last Friday and had birthday party. Twenty little folks attended, the guest of honor being her cousin, Elizabeth Pomeroy of Springfield, Mass.

A birthday cake was one of the features of the occasion. Games were played, the most exciting being a peanut hunt won by Ellen Muchemore.

The young hostess received a goodly number of nice presents.

The electric lines leading into Portsmouth were all to the bad last evening.

CITY BRIEFS

Read the Herald's Want Ads.
The early frosts have done much damage.

It is pretty cold for going barefoot at night.

Autumn timetables on the electric cars today.

Portsmouth's theatrical season has started well.

All Portsmouth went out for the day Monday.

P. A. C. day is the next event on the programme.

Crowds, crowds, crowds, everywhere, yesterday.

Have your shoes repaired at John Mott's, 34 Congress street.

The Warwick and the P. A. C. kept open home on Monday.

Seventy-two degrees above zero at two o'clock this afternoon.

Smoke the Warwick 10c cigar, Ed. Brown manufacturer, 38 Market St.

The drought has been cracked several times, but it is not yet completely broken.

The vaudeville and pictures at Music Hall attracted a large crowd on Monday afternoon.

A party of 50 from York Harbor took in the performance at Music Hall Monday evening.

Locks repaired and Keys fitted. Philbrick, No. 26 Congress street.

An entire new performance of pictures, songs and vaudeville at Music Hall tonight.

Music "Fest" Dance, Kittery every Tuesday evening, Wentworth Hall.

The annual meeting of the W. C. T. U. will be held at the home of C. T. Winslow, 9 Islington street, on Wednesday at 3 p. m.

Uch! Itch! Itch!—Scratch! Scratch. Scratch! The more you scratch the worse the itch. Try Doan's Ointment. It cures piles, eczema, any skin itching. All drug-gists sell it.

Oak Castle K. G. E., held their annual outing at Freeman's Point Monday and entertained fifty guests and all had an excellent time. The members went out to the Point on the steam cars, and music was furnished by the Kearsarge Flute and Drum Band.

LAKE-SPARKS

Willis C. Lake, clerk, of Both, Me., and Florence C. Sparks of Presport, Me., were married at City Hall today by Elmer B. Clark, Esq.

BAREFOOT THIEF

For several weeks past, the people living along Maplewood avenue, near the Jones farm, have been complaining bitterly of the loss of farm produce and fruit.

Gardens have been entered and the best that grows was none too good for the thieves. Even flowers were pulled from the beds and considerable damage was done to fruit trees.

The people out that way decided to keep a watch at night and on Monday morning, at about two o'clock Ralph Han made a discovery of a man prowling around his garden. He quickly communicated with the police department by telephone, and two officers were soon out in that district.

After watching for a while they captured a man in his bare feet, helping himself to peaches which he was loading into a big basket.

He was brought to the station and gave his name as Louis Birolli.

The police court later in the day, put the finish on the case.

POLICE COURT

A variety of sinners faced Judge Simms in court on Monday, as the result of Saturday night breaking, fighting and drinking.

James Hanley, Joseph Cavanaugh and John Riggs, who engaged in a three cornered bout on Linden street on Saturday night, and startled the neighborhood with their rough and tumble exhibition, settled as follows: Hanley \$2.00 and costs, \$6.00; Cavanaugh \$4.00 and costs, \$6.50; Riggs \$4.00 and costs, \$6.50.

Dominick Bodine, who was flashing a gun as big as the shooting iron in the fighting top of a battleship, at the North End on Saturday night, where everybody was giving him lots of room until the police arrived, will stay in jail for the grand jury until October unless he can get \$200 release money somewhere.

Louis Birolli, who was gathering a fine lot of peaches at the residence of Ralph Han in the early hours of the morning, will also face the grand jury. His bail was set at \$200.

Thomas Stover, drunk, \$2.00 and \$2.50 costs.

Elijah Chadwick and Michael Daley, drunk, released.

There was no court today.

MONDAY AT GREAT BAY

Cutting of the Skee Club Was a Hit in Every Detail

The Skee club, who had several out of town guests on Monday, held an outing at Great Bay.

The programme included a variety of sporting events in which the ladies made surprising records. The official score of events that came off at the "skee" have been kept from the press, but it is known that a young Massachusetts lady carried off more than her share of honors in the athletic features of the day.

EIGHT DISCHARGED

Street Department Reduces the Regular Force of Help.

The committee on streets ordered the discharge of eight men in the department on Saturday night.

The suspension is said to be owing to no money.

GOT POSTOFFICE JOB

Selma Wheeler of this city, for several seasons a singer with the Ben Hur company, has been appointed to a clerkship in the Brooklyn post-office.

Superintendent Fosgate had his hands full yesterday handling the crowds.
